OPEN THE WAY TO BRIGHT FUTURE IN JAPAN

Hokkaido University International Graduates Program Training Program for Global Innovators in Life-Sciences

To Prospective Students:

Our special graduate program “Training Program for Global Innovators in Life-Sciences (IGP),” is financially supported by the Japanese Government, MEXT. This program aims to train the international research pioneers in life sciences with hopes for a fruitful future in their home country. It provides scholarship to outstanding international students from any country to undertake a PhD or master course study at Graduate School of Life Science, Hokkaido University.

Course Overview

- The education, guidance, discussion and lecture of IGP program will be given in English.
- Students are encouraged to plan and carry out international meetings to improve their ability to use English as international communication tools, and also to attend international conferences to develop their presentation skills in English.
- Students will be required to make a proposal for competitive research funds and to submit their papers to international journals. It will enable them to have practical experiences in the forefront of research activities.
- The ultimate goal of the program is for students to be global innovators in life science and to be able to develop research by oneself throughout the world.

How to Apply

- First, find a laboratory to fit in with your work commitments, your needs and your interests. The laboratory list to choose from is available at <http://altair.sci.hokudai.ac.jp/grad/igpoverview/laboratories.php>
- Second, contact the laboratory director and ask about the possibility of an interview.
- Then, after receiving approval of the director, you may prepare the application package: application forms, a letter of recommendation, a graduate diploma, and so forth. Get further information on application procedures from the director or at the program website.
- Finally, submit the application package to the director by e-mail.

MEXT Special Scholarships

- 3-year MEXT scholarship for 7 doctoral students and 2-year MEXT scholarship for 1 master student are available during their study at Hokkaido University
- Scholarship of 145,000 JPY (DC) / 144,000 JPY(MC) per month will be paid. Admission & tuition fees will be waived.
- Roundtrip airfare between the nearest airport of the scholar's residence and Tokyo will be covered.

Life at Hokkaido University

- HU provides student dormitories for international students which located at and near Sapporo Campus. Each dormitory room comes equipped with fresh bedding and linen, as well as high speed internet access.
- The Institute for the Advancement of Higher Education provides a support desk staffed with international students who can answer your questions.
